

ASHDOWN HOUSE · TABLE TENNIS LADDER

WHO RULES THE TABLE?

A public Elo ladder for the ping-pong table downstairs.
No accounts, no app, no excuses. Play, tap in the result, and watch your name climb the board.

1

CREATE YOUR NAME

Once. Full name, MIT username, or anything the house will recognise. You start at 1000.

2

RECORD A MATCH

Two names, tap the winner, done. Doubles works too. Anyone can file it, and every match is public.

3

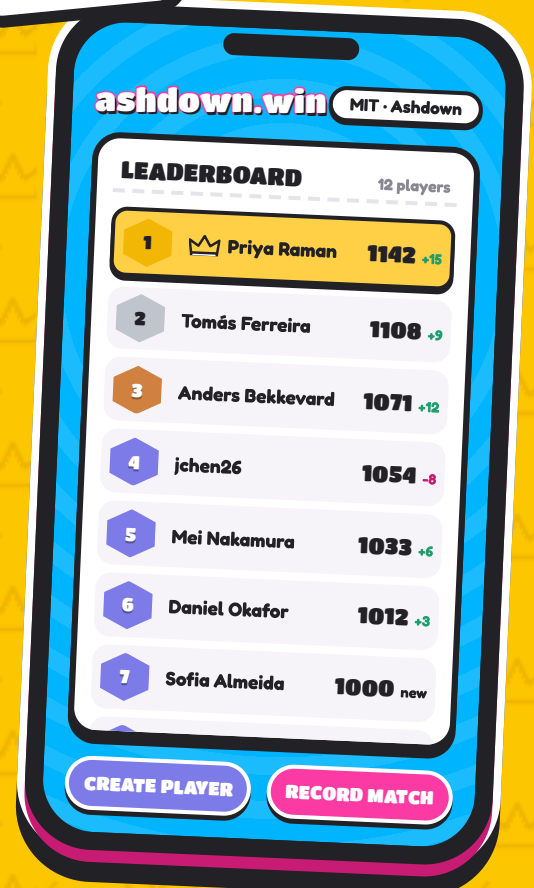

WATCH THE BOARD

The ladder updates the moment you submit. Winner takes points, loser gives them up. First place wears the crown.

THE RULE

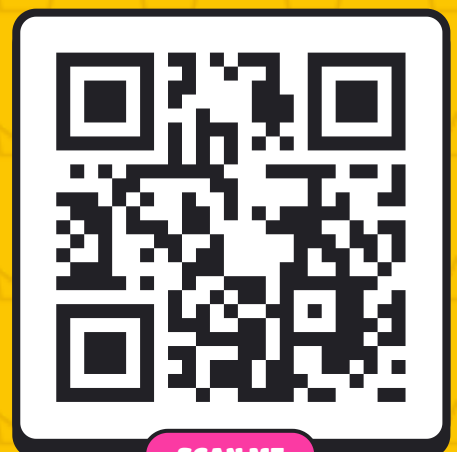

$R' = R + K \cdot (S - E)$, where $E = 1 / (1 + 10^{(R_{\text{opp}} - R) / 400})$. **K = 32** singles, **K = 16** doubles, everyone starts at **1000**. Same maths as chess.

LIVE BOARD

ASHDOWN.WIN

Scan it, or type it. Works on any phone.

SCAN ME

The table is in the Ashdown lounge. Bring a friend.
